Softwares

Figma • Figma Make • Adobe Creative Suite • Github Copilot • Azure DevOps • JIRA • Miro • Procreate • Supernova

Experience

Senior UX Designer with 7.2 years of experience across Insurance, Consulting and Product. Experienced in end-to-end enterprise product design, cross-functional collaboration, and design systems, translating typical workflows into intuitive user experiences while enabling consistency and scalability.

GlobalLogic / Design System Specialist

July 2026 - Present

Governing and building LUX 2.0, the design system powering Verint's CX product suite. Supporting AI-assisted design and development workflow integration. Driving design system scalability, consistency, and cross-functional adoption.

John Deere / Design System Designer

December 2023 - June 2026

- Drove Design System initiatives supporting 20+ product teams through reusable components, documentation, and cross-functional collaboration.
- Led the enterprise Equipment Icon System (140+ icons), establishing visual standards, governance, and scalable contribution workflows.
- Built scalable components, and a centralized PDF Report Library to improve design-to-development consistency.

Accenture / UX Designer

January 2022 - December 2023

- Led end-to-end product design of a generative underwriting platform for global insurance organizations.
- Conducted user research, workflow analysis, wireframing, and prototyping to simplify complex user workflows.
- Partnered with product, business, and engineering teams to deliver user-centered solutions in agile environments.

TCS Interactive / UX Designer

July 2019 - December 2021

Redesigned a legacy enterprise application through research-driven design, improving usability while collaborating closely with engineering from concept to implementation.
